TO: File

FROM: Paul Baker

SUBJECT: File Closure, Richard Bedier, Judy #1 Mine, S/019/0047, Grand County, Utah

The Division no longer has the operator's address. I inspected this site in 2005, and there is very little disturbance. Recreationists are using the mine roads, and mining occurred on a rock outcrop. There are no environmental hazards. The only potential hazard to the public is an overhanging rock, but this appears to be a natural feature rather than something created by the operator. There is very little vegetation in the area, and since the mine was on a rock outcrop, no revegetation would be expected.

I will change the status of the mine in the Fox Pro database to retired.
